Abstract not available for WO9838979

Abstract of corresponding document: EP0862913

The invention concerns a silicon rubber base oil composition for cosmetic use. This composition contains a mixture of: (a) at least a silicon rubber; (b) at least a vegetable oil or a synthetic triglyceride; and (c) at least a volatile silicon such as alkylpolymethylpolysiloxane corresponding to formula (I) in which: $x = 0$ to 10 ; $y = 0$ to 10 ; R represents a linear or branched alkyl radical with 5 to 10 carbon atoms; R1 represents CH3 or R, provided that when $x = 0$, R1 represents R. The homogeneous oil composition is used for making cosmetic compositions in anhydrous form or dispersed in an aqueous medium.
